Expertise: JavaScript, ReactJS, Tailwind, Node.js, Express.js, MongoDB,
Familiar: Next.js, Motion, TanStack Query, React Hook Form,
Tools: VS Code, Git, Github, Chrome Dev tool, Firebase, Netlify, Vercel
Designs: Adobe Illustrator, Canva, Figma, PowerPoint

Projects

UniHostel | Hostel Management System [Live](#) | [Client Side](#) | [Server Side](#)

A full-stack MERN project enabling students and admins to manage meals, subscriptions, and reviews with role-based dashboards. Integrated Stripe for secure payments and built an eye-catching responsive UI with dark/light modes.

- Role-Based Workspace: Custom Dashboards for admins and students.
- Secure Payments: Stripe Integration for subscriptions.
- Eye-Catching UI/UX Design: Light mode, Dark Mode and modern colors.

Tech Stack: React.js, TailwindCSS, TanStack Query, Node.js, MongoDB, Express.js

RecSyS | Product Recommendation System [Live](#) | [Client Side](#) | [Server Side](#)

A full-stack web application where users can post product-related queries, get community-driven recommendations, and explore better alternatives — all in a dynamic, interactive, and responsive environment.

- Community-Powered Recommendations: Post queries and explore alternatives.
- Secure & Scalable Stack: Firebase Auth, JWT-protected APIs, and responsive UI/UX.
- Interactive Experience: Search, sort, and animated transitions for a smooth user journey.

Tech Stack: React.js, TailwindCSS, TanStack Query, Node.js, MongoDB, Express.js

Hobby Shop | Hobby Group Organizer [Live](#) | [Client Side](#) | [Server Side](#)

Hobby Shop (also known as HobbyHub) is a full-stack, mobile-first web application that helps users discover, join, and create local hobby-based groups.

- Hobby Group Organizer: Discover, join, and create local hobby-based groups.
- Seamless Authentication: Firebase Email/Google/GitHub login with real-time feedback.
- Modern UI/UX: Dark/Light theme toggle, smooth animations, and a clean, engaging interface.

Tech Stack: React.js, TailwindCSS, TanStack Query, Node.js, MongoDB, Express.js
